## Profile

I am currently working as a software development apprentice at Asda on the mobile application development team. I am passionate about software and new technologies, and am seeking opportunities to further my knowledge in various areas of software development. In my current role I have developed and delivered a React web Kiosk solution for Asda Scan and Go.

## Work Experience

Asda Stores LTD.

IT Apprentice

2018 - Present

Overview:

I have worked at Asda as an apprentice since September 2018, I entered this role with no prior development experience. Within this role I have gained experience in a variety of areas of software development through fast-paced work in a retail-orientated team. I have completed a level 3 qualification in software development, and am working towards my level 4.

During my time in Asda I have worked on several projects, most notably being Scan and Go Mobile, which allows customers to scan their shopping on their mobile device. I have worked closely with experienced developers in the rewrite and enhancement of Scan and Go for the in-store android devices; Which is live in multiple stores. This includes the React web application for the kiosk screen, for which I developed a significant amount of the logic and screen designs, and wrote the majority of the unit tests in Jest and Enzyme.

Experience in:

- |                       |                         |
|-----------------------|-------------------------|
| ★ Javascript          | ★ Git flows             |
| ★ React/ React-Native | ★ Data connections      |
| ★ Design Patterns     | ★ Writing Secure Code   |
| ★ Data connections    | ★ Object Orientated and |
| ★ Managing automated  | Functional              |
| deployments           | programming.            |
| ★ BDD                 | ★ Team working          |
| ★ Peer Reviewing      | ★ Agile ways of working |

Skills in Development: Continuous Improvement in Current Skill Set

- ★ React-Native with Hooks
- ★ Node JS
- ★ Java
- ★ OOP
- ★ Unit Testing
- ★ Database Administration

CEX Stores LTD. Sales Assistant 2017 - 2018

Overview: I have one year's full time experience in Cex, in which I operated tills, tested hardware that customers wished to sell, ensured cabinet and window displays were well-stocked and attractive. I worked as part of a team to deliver great customer service, and improved upon my product knowledge on a daily basis.
